# WHO ARE WE?

Rotaflow is a mid-size, premier full-service Fabrication, Engineering, Procurement, and Construction Management (EPCM) company. Located in Edmonton Alberta with another location in Fort McMurray. We specialize in fire protection and industrial utilities. For over 27 years, we've worked with the world's leading energy companies, including Suncor Energy, Gibsons, Husky, Cenovus, CNRL, Pembina Pipelines and Albian Sands.

Customers and market influencers see us as subject matter experts in executing Fire Protection Industrial Utility projects from concept through CSU to operation. Our team of over 100 employees includes Professional engineers, designers, Welder-Fabricators, Pipefitters and skilled Labourers. They all collaborate to design, build, retrofit, repair, operate, and maintain systems, protecting life and assets and enabling companies to focus on their core business.

As part of Rotaflow's initiative to better serve our clients with on-time and cost-effective solutions, in 2019 we started the process to obtain our ABSA certification for B31.1 Power Process Piping and B31.3 Process Piping.

October 2020, ABSA accepted our Quality management system and physical example deeming us certified to provide services in the pressure boundary.

To Provide a complete service experience we completed our CWB W47.1 certification July of 2021

We hold ABSA approved procedures for;

- Carbon steel (F3/F4 SMAW)
- Carbon steel (F6/F4 GTAW/SMAW)
- Stainless steel (F6-P8 GTAW)

We Also hold approved CWB procedures for Stainless and Carbon Steels in order to provide the most versatile capabilities welding.

*We appreciate the attention to detail and safe work practices your team has demonstrating.*

- Suncor, Fort Hills

*Every challenge was met head on with the primary focus being safety.*

- Suncor, Base Plant
