📍 6707 59 St NW Edmonton, AB T6B 3P8

## What we Offer:

### Fire Protection

- Design-build fire sprinkler systems, fire alarm & gas detection systems, fire water pumphouses, and special hazard systems.
- Service, inspection, verification, and ULC-S1001 integration of fire and life safety systems.

### Industrial Utilities

- Civil & underground utility systems
- Structural and piping fabrication
- Fuel tank inspection

### Engineering Services

- Feasibility studies, basic and detailed design, and risk assessment
- Fire code consulting, hydraulic calculations, sprinkler and fire alarm layouts
- BIM and 3D design

### Products

- Rotaflow is an authorized distributor of the Ansul fire suppression product line, Autocall, Honeywell Notifier, and the HS-81 fire alarm controller.
- We are also a partner with FireDos and Amerex.
